The Seven Acres Dahlias and Gladioli

L. N. DAVIS

203 Main Street, Stoneham, Mass.

1924

INFORMATION

The different varieties of Dahlias we have abbreviated as follows; Decorative, D., Peony, P., Cactus, C., Hybrid Cactus, H. C., Show, S., Pom Pom, P. P. Where the variety favors two different types, both are mentioned.

We guarantee all bulbs from unpropagated, field grown clumps, that were not forced for exhibition blooms in 1923, true to name, and to arrive in good condition.

Plants of some of the later varieties at half price.

Cash with order or in advance of shipment.

THE SEVEN ACRES are situated ten miles north of Boston, on the White Mountain Road.

VISITORS WELCOME

GROWING THE DAHLIA

Location: Open, sunny or partial shade. Cultivate the soil thoroughly. Plant from May 1st to June 20th. Dig a hole one foot deep. Put in shovel of manure or other plant food. Cover with one inch of soil. If stake is to be used, set in. Plant bulb four inches deep, horizontally, and cover. Cultivate at least once a week. Do not water until plants are well above the ground. When the buds appear, water the plant thoroughly once or twice a week. Apply any good fertilizer, stirring the soil lightly after. To obtain extra large flowers, disbud freely, leaving only a few buds and branches on each plant.

1924 INTRODUCTIONS

MASSACHUSETTS: A new colored Giant Decorative. Largest Dahlia in the American Dahlia Society's Trial Gardens 1922. Awarded Certificate of Merit. Grows 9½ inches, depth 4 inches, without disbudding or plant food. Grown side by side with other giants of the Dahlia world, this stands out most prominently. As an exhibition flower, it would be hard to find its equal, also good cut flower. The color is a gorgeous shade of amaranth purple, the tight center petals a pansy purple, outer petals shading Syrian rose. Immense flowers on good stems, free bloomer. Stock limited. Shipment made according to cash orders in rotation after April 30th. Strong bulbs only \$10.00.

REGINA COELI: Mammoth White Decorative, of exceptional formation. This beautiful flower is in a class by itself, admired by all who have seen it and proclaimed to be the best of all whites. I refused \$100 for this dahlia when the first flower showed from the seed, and it has shown a vast improvement since then. Bulbs are very strong growers and good keepers, and therefore the extremely low price of \$5.00 per bulb.

MRS. GEO. W. JENKINS: Beautiful new decorative. Unusual flower of entirely new formation. Each petal rolls back from its center and when the blossom is fully open, the entire back is hidden. The effect is striking and uncommon. The flower is very large, of a bright rich scarlet color, the foliage exceptionally good, making this a most desirable addition for both amateur and professional. Price \$3.00.

GENERAL COLLECTION

<i>Alwine P. P.</i> White, tipped lavender.	.25
<i>Acquisition S.</i> Rich lilac color	.25
<i>A. D. Lavoine S.</i> Finest pure pink, excellent cut flower.	.15

MASSACHUSETTS: Largest Dahlia in American Dahlia Society Trial Gardens 1922. Awarded Certificate of Merit. Also awarded Certificate of Merit, 1923, Dahlia Society of California. Following is the description of the judges of the D. S. of C.: "Davis, L. N., Stoneham, Mass. **MASSACHUSETTS:** Dec. Deep Rose, very large, wide florets, Score 88."

REGINA COELI: Awarded Certificate of Merit, 1923, Dahlia Society of California.

MRS. GEO. W. JENKINS: Awarded Certificate of Merit, 1923, American Dahlia Society.

Following is the description of the judges at Storrs, Conn.: "Dec., entered by Leslie N. Davis, 203 Main St., Stoneham, Mass. (E. 85) eg. Spectrum Red, nearest. Flowering habit profuse. Stem, 6-13½ inches drooping, very large bloom. Size of flowers 5½-6½ inches, depth 3-4¼, height 5 feet 6 inches."

These three Dahlias, winners of Certificates of Merit, which is a proof of their excellence, are priced at only one half of their value, giving all a chance to have them the first year on the market.
